

## 2300 Partner Bed

Product Code: 7-23TP

The Alrick 2300 Partner Bed is specifically designed to cater to the individual needs of two users while maintaining a connected and cohesive design through its integrated endboards. This unique bed features electric hi-low functionality that operates in unison, ensuring synchronised adjustments across both sides.

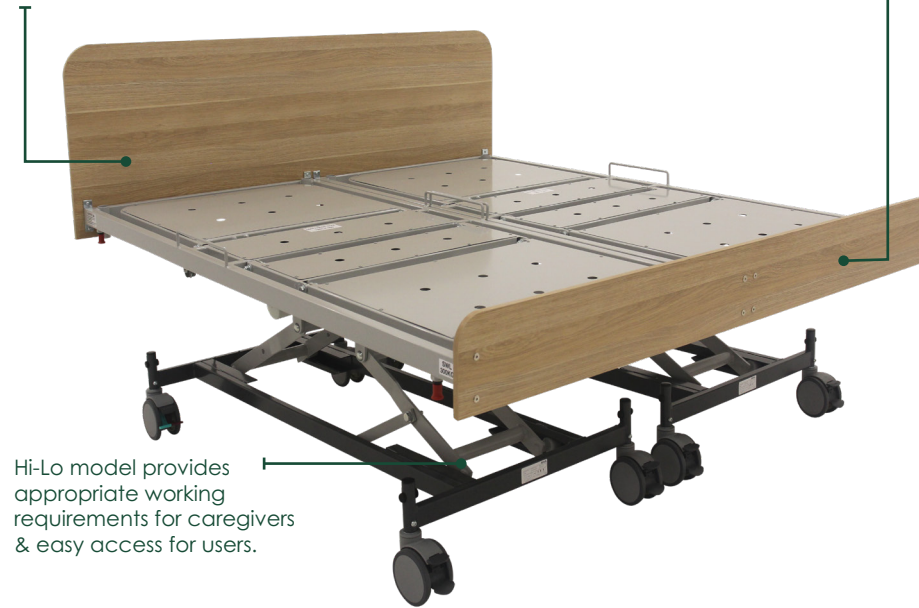

Each side of the bed includes individual auto-regression backrests and electric kneebreaks, each capable of supporting a safe working load of 200kg.

It offers extensive customisation options to tailor the bed to specific preferences and healthcare requirements, ensuring personalised care and satisfaction in all healthcare environments.

Maximises flexibility and enhances independence and care for individuals through its integrated endboard design.

Customisable colours and styles to suit the users or carers needs or room aesthetics.

Hi-Lo model provides appropriate working requirements for caregivers & easy access for users.
