

2300 Split Bed

Product Code: 7-23TS

The Alrick 2300 Split Bed is designed to cater separately to the needs of two users within a single bed frame, offering a split sleeping surface for individual comfort. Built with heavy-duty actuators, this innovative bed includes combined electric hi-low functionality, along with individual electric adjustments for

backrests and kneebreaks, all supporting a total safe working load of 300kg. The Alrick 2300 Split Bed ensures efficient and reliable operation, providing peace of mind for both users and caregivers. Available in Double and Queen Double sizes, this bed can be customised to fit specific preferences and requirements.

Maximises flexibility and enhancing care outcomes with the use of a split sleeping surface and a single bed frame.

Customisable in colour and style to suit the users or facilities aesthetics.

Hi-Lo model provides appropriate working requirements for caregivers & easy access for users.
