

Staebel Emergency Lifting Kit

staebel 

Product Code: 210140

This specially designed pack contains all the equipment you will need, especially where there is no mechanical aid available.

Health professionals love the simplicity of the Emergency Lifting Kit, which contains all of the equipment required to manoeuvre a patient who has collapsed. Designed in line with the Guidelines for Safer Handling during Resuscitation in Healthcare Settings, the pack contains a small slide sheet, a pair of flat slide sheets, a set of extension straps and a designated lifting sheet.

The Emergency Lifting Kit is tested up to 150kg to offer ultimate patient security and support. Its durability, waterproof finish and fire-retardant properties make this falls management pack the perfect patient-handling solution when you have no other choice other than to lift a patient manually.

- Slide sheet, flat slide sheets, and lifting sheet for when there is no stretcher hoist available
- Extension straps aid patient repositioning and ensure patient safety
- Robust design supports patients weighing up to 150kg
- Waterproof
- Fire-retardant
- Includes: 2 x Slideezi + Handles, 1 x Rolling Slide, 1 x Lifting Sheet, 2 x Support Straps
