

Staebel Serena Electric Recliner

staebel 

Product Code: 5583

The Staebel Serena Electric Recliner is designed for versatile use, both indoors and outdoors, catering specifically to people with reduced mobility.

The Staebel Serena Electric Recliner is designed for versatile use, both indoors and outdoors, catering specifically to people with reduced mobility who are assisted by a caregiver. Its wheels enable smooth movement across different terrains. In the semi-reclined position, the leg rest aligns with the seat, providing optimal comfort; this is achieved through a synchronised mechanism that adjusts the leg rest as the chair reclines. The chair includes a wide push bar, allowing the caregiver to easily manoeuvre it, and is equipped with drum brakes accessible directly from the push bar for convenient control. The Serena Recliner allows easy access to dining tables, thanks to the armrest height.

- 30° electric tilt: synchronisation of seat, backrest, legrest
- Manual synchronisation of seat, backrest and legrest
- Optimal hygiene: replaceable, removable and machine washable duvet modules at 30°
- Ultra comfortable duvets filled with siliconized hollow fiber
- Drum brake system: both rear wheels with manual control
- 3 biocompatible coatings available: PVC/PU treated with M2 fire retardant, mottled fabric, water-repellent velvet
- Various colours available (variable depending on the coating)
- Warranty: Chair: 2 years, cylinder: 5 years
